

The House of Commons of Canada
Subcommittee on International Human Rights

First of all, I would like to thank you for your concern about the Uyghur human rights issues. My name is Dilshat Dillon Hopur, a Canadian currently living in Oakville ON, my brother Dr. Halmurat Upur (aka Halmurat Ghopur) was the former President of the Xinjiang Medical University of China. He was subjected to enforced disappearance on December 10, 2017, then his son Dr. Palvan Halmurat Upur (Doctor of the First Affiliated Hospital of Medical University) was also enforced to disappear in November 2019. Along with my brother and his son, my other relatives including my Uncle Dr. Ghalip Nasir (Professor of Xinjiang Normal University) and my cousin Pro. Nayiljan Turghan has also disappeared in 2018. I still have no idea of their whereabouts.

After, my mother, who was shaken by grief for the past two years from the thought of her son and her brother's disappearance (Dr. Nasir), passed away in August 31 2019.

My brother is currently in a very dangerous situation, because the news from various sources proves that the Chinese government sentenced him to death with two years suspended in secret trials.

So I beg you to be the voice of voiceless and ask the Chinese government to immediately release Dr. Halmurat Upur, Dr. Palvan Halmurat Upur and my other relatives.

If you need any details, please feel free to contact me .

Sincerely yours,

Dilshat Dillon Hopur
