Information received that there will be a 'slow roll' in St. Stephens, NB on January 30th. This is another POE from NB into Maine, USA.

- Information has been received suggesting multiple protests being planned throughout the province for 2022-01-31 with the potential to impact critical infrastructure.

Operational Planning:

- Given the multi-jurisdictional impacts of this large scale demonstration on the NCR, all key stakeholders (RCMP, OPP, OPS, PPS, SQ, MRC des Collines, the City of Ottawa, Ville de Gatineau, SPVG) are actively planning and collaborating to ensure public safety.
- RCMP, in collaboration with PPS, are in the process of activating drone mitigation protocols, to support detection requirements.
- PPS advised that concrete reinforcement blocks have been added to No Name St. New concrete reinforcements have also been added in front of parking "850" beside Supreme Court.
- As long as protestors remain peaceful, they will be able to exercise their democratic rights to protest. Should this extend into several days, whereby undue disturbances are caused to the public and downtown core, judicial authorizations to forcibly remove trucks and protestors may be considered. The City of Ottawa, OPS, and Ottawa Legal Services are currently exploring all legal options, which includes injunctions.
- Using force to remove the truckers and protestors will be considered as the last resort. The preferred strategy is to wait it out, with truckers and protestors egressing willingly.
- RCMP Senior Management has declared these events as being 'Extreme circumstances' to facilitate the ability to access resources on short notice, in the event that surge capacity is required to support a prolonged event. NPF have been consulted and are supportive.
- January 30, 2022 at 11:32, a communiqué was distributed confirming the declaration of this event as an "extreme circumstance", in accordance with Section 21.28 of the RCMP Regular Members (below the rank of Inspector) and Reservists (RM) Collective Agreement. Therefore, should it be absolutely required, members redeployed under the temporary National Division command may exceed their maximum allotted hours of work until resource replacements or relief arrive.

- RCMP surge capacity currently stands at over 100 members in the NCR, inclusive of C Division (40), National Division, Ottawa Detachment and National Headquarters. Additional surge capacity has been identified by C Division (50) and O Division (40), who are ready to deploy to the NCR, if required.
- The RCMP has asked Transport Canada to temporarily expand their standard NOTAM over Parliament Hill as part of their plan for managing the scene. They have issued a temporary NOTAM for the additional space not covered by the permanent restriction over Parliament.
- PPS has advised that the 100 public order resources (from OPP and RCMP O Division) will be located within Westblock, in the event that they are required.
- MLT working with PPS to distribute a message to Ministerial Chiefs of Staff requesting information on which Ministers plan to attend Parliament on January 31st, along with arrival/departure times. This will assist in scoping out sequencing and routes.
- FBI

- FBI

- All key internal and external stakeholders will have a presence in the Regional Command Centre to ensure ongoing communication and collaboration. While the NCRCC will also serve as the area command centre for the RCMP, forward command centres are being stood up at alternate locations by OPS and PPS with direct linkages into the NCRCC.
- In addition to domestic partners, a representative from the US Embassy will be in the Command Centre given the potential impacts on that diplomatic site.
- The Ottawa Police, and PPS, with support from the OPP have a vehicle screening process for the downtown core, and can support up to 3000 vehicles for inspection.
- The 2 lanes surrounding Parliament are controlled at sites on Kent and Bank Streets, with mobile command centers set up. (POJ and PPS)
- Given the resumption of Parliament scheduled for January 31st, contingency plans are being developed to ensure supplemental resources are available and to minimize the potential for ongoing disruptions.
- The RCMP C Division helicopter has been made available for 24/7 usage and Transport Canada has offered up a helicopter, should it be required.
- SPVG have advised that the Alexandria Bridge will be closed as of 6:00 PM on January 28th.

- As a precautionary measure, and following recommendations from security partners, PSPC has authorized the lock down of all buildings under its control (100 Wellington, National Press Building, etc.). Access for essential building occupants will be maintained at all times.
- Jersey pillars have been placed on the perimeter of the War Memorial.

Public Order:

- The **Parliamentary Protective Service (PPS)** is the planning lead for the **Parliamentary Precinct and the grounds of Parliament Hill**.
- The **Ottawa Police Service (OPS)** is leading the planning for the **National Capital Region**.
- **National Division** is planning in support of the RCMP's **protective mandate** and working to ensure that we support our law enforcement partners in the region with any specialized support services required.

RCMP Protective Mandate:

- The RCMP's role is to maintain Protective Policing core VIP duties at all times.
- Following a message from the SAA to MP's regarding the publication of addresses online, the RCMP has received a vetted list of MP's residing in the NCR. The next step will be to develop a visualization map of these residences and consideration is being given to utilizing surge capacity resources proactively, deploying them in teams to increase patrols in the areas.
- PPS and Protective Operations are ironing out the details surrounding advances to Westblock, in order to plan for the resumption of Parliament.

- The GoFundMe page currently sits at over \$6.9M and media is now reporting that GoFundMe has agreed to release \$1M to the organizers.

upset with provincial or federal government responses as COVID-19 continues to impact daily life.

- Estimates on social media have claims that up to 1 million people are coming to Ottawa. These numbers are in no way reliable.

- Jason LEFACE, an organizer who has previous planned events and protests for the group 'No More Lockdowns' was quoted in a National Post article as wanting to gridlock the city and was planning to stay until demands were met by the government.
- On January 27th, information was received via the National Security Information Line (NSIL) that during a broadcast, there was mention of the Proud Boys as being already present in the NCR. Ottawa INSET is investigating and deconfliction has been coordinated with our external security and intelligence partners.
- The RCMP has located social media posts indicating some participants may stay around the downtown core until January 31st in hopes to disrupt the House of Common's sitting that day.
- Although the majority of information indicates organizers are planning a peaceful event, many social media posts suggest some participants may attempt to disrupt government buildings and further cause disruptions throughout the city.
- Twitter posts suggest that the convoys may at some point converge near 24 Sussex Drive to continue their protest.
- With respect to the threat picture, there has been an increase in online narratives supportive of the convoy among both ideologically motivated networks, as well as in general public discourse.
- **ITAC** assesses the threat of possible IMVE-driven opportunistic violence as **LOW**.
- Open Source reports also suggest police are setting up roadblocks outside Ottawa, and such reports seem to fuel some trucker's agitation. A post to the event Facebook group asks for known MP's addresses in Ottawa including the Prime Minister's residence and cottage. The posts suggest the convoy should break apart to protest at all these locations.
- The convoy is attracting individuals who are not aligned with any specific ideology or group, but who have experienced personal hardships (such as job loss) due to COVID-19 and are upset with provincial or federal government responses as COVID-19 continues to impact daily life.

- Open Source monitoring has identified associated posts advocating violence and there is potential for anti-government groups to join the demo with violent intentions. Online posts associated with the convoy continue to feed the conspiracy narrative with misinformation and disinformation which raises tensions with protestors.
- In addition, Open Source reports suggests truck drivers from the US plan to join the Canadian demonstration with the possible intent to cause further disruption.
- Estimates on social media have claims that up to 1 million people are coming to Ottawa. These numbers are in no way reliable.
- The RCMP Protective Operations Coordination Center (POCC) has reported a strong resentment on multiple social media platforms, targeting Prime Minister TRUDEAU, Minister of Transport Omar ALGHABRA and politicians in general.
- RCMP NHQ Communications advised that Minister Melanie JOLY made remarks during a radio interview with 98.5FM Montreal indicating that funding for the convoy may come from a foreign entity (Russia). These remarks remain unconfirmed and no online chatter surrounding this statement via OS has been identified. These types of statements could fuel tensions with the convoy group.

Minister LEBLANC

- Minister Leblanc has
- The Sergeant-At-Arms has distributed an email message to MP's with Constituency offices in the NCR, advising them of the potential disruptions and the precautions that can be taken to ensure their safety. It is expected that a similar message will be distributed to all Parliamentarians and Parliamentary employees.

Minister ANAND

- Minister Anand is to travel to Kyev on January 20th alongside the Chief of Defence and staff.
- Minister Anand **will not** be provided with IPO for her visit to Kyiv; HOWEVER, this is being revisited (January 27th).
- This is the similar stance as Minister Joly's visit last week.
- POCC determined that Kyiv is stable – for now but if this changes then it would be a war zone for which our members are not equipped. We also have a duty of care to our members.
- **The Chief of Defence staff has a protective package provided by the CAF at all times** domestically and internationally.
