Legal Action Updates

March 23, 2023

Rocco is working diligently at preparing the new Notice of Civil Claim. The NOCC will include challenging Bill 36. This means it will be part of our constitutional challenge against the BC government. This is a very important and critical action against the BC government's unlawful passing of Bill 36 that violates guaranteed protected constitutional rights of citizens.

November 13, 2022

The new Statement of Claim will be filed in the near future and we are also appealing several of Judge Ross' rulings, as they are incorrect and unfounded. We must file an appeal so that his ruling does not remain on record. An appeal is always a separate cost from the original claim. We therefore request, and would appreciate, [your donation](#) and ongoing support to help keep **Action4Canada's** legal war chest replete and equipped for the ongoing battle. **Action4Canada's** case is the only major case proceeding in British Columbia and that is thanks to Rocco's expertise. **Important to Note:** As a result of Rocco's federal actions Trudeau cancelled the travel mandates and APP, in addition to instigating other positive outcomes

August 29, 2022 – Good News, Action4Canada's Case is Moving Forward!

On **August 29th, 2022** the Supreme Court of British Columbia [ruled](#) on the Defendants' motion to strike the action brought by **Action4Canada** and the other Plaintiffs. The Defendants had requested that the claim be DISMISSED without leave (permission) to amend it because they felt it was frivolous, an abuse of process, and demonstrated no cause of action. **The Court REJECTED the Defendants' request to dismiss.** [Read more Here](#)

Watch the following interviews with Tanya Gaw as she provides further details on the case and the significance of Judge Ross' decision.

Action4Canada Overview of the Court Appearance on May ...

May 31, 2022 – Court Update

It was an amazing day in court. Rocco was brilliant as he argued the merits of the case in opposition to the Motion to Strike. He pointed out that this is not a case about a truck hitting a bicycle but one of great importance and public interest. Rocco meticulously provided case law, Canadian and International, to defend our position as well as facts, supported by evidence, countering the defense's accusation that the case was founded on "conspiracy theories." Mr. Galati advised Justice Ross that he can provide the evidence proving Bill Gates funds GAVI and the WHO; Bonnie Henry has ties to Bill Gates and the WHO; Teresa Tam is tied to the WHO; Justin Trudeau paid a billion dollars to Bill Gates; and made many more important points. April 2022

Dear Friends, as many of you may be aware Rocco became critically ill and was hospitalized in December 2021. As we reported in January 2022 the remaining defendants filed a motion to strike and this is a typical response in a case where the defendants are committing such egregious crimes and are in powerful positions of authority.

The Motion to Strike was to be addressed on Feb. 3, 2022 but due to Rocco's condition he was unable to attend court so **the Motion to Strike has been set for May 31, 2022.**

There are reports from individuals trying to discredit this case and make accusations that Rocco is intentionally sabotaging it but we assure you, nothing could be further from the truth. It is regrettable that we have experienced

these very unfortunate delays but they are outside of anyone's power to change.

Action4Canada retained Rocco Galati because we believe he is the best man for the job and we have confidence in his ability and his strategies.

Further, the donations generously given by our members and those supporting this action are sitting in trust and will be used in taking legal action.

January 2022

Some of the defendants in the **Action4Canada** Notice of Civil Claim have responded with a Motion to Strike. This is a common response to a claim of this magnitude and in no way means the legal action has been dismissed.

Action4Canada continues to work with Rocco's office and will be proceeding with the case as planned.

Update November 1, 2021

A [Response to Civil Claim](#) was filed by two defendants in the court action of **Action4Canada** et al v Her Majesty the Queen in Right of British Columbia. Island Health Authority and Providence Health Care are the first of twenty-four defendants to file their response.

The Response was a standard response filed as required pursuant to **Rule 3.3(1)(2)** of the B.C. Civil Rules of Court. As required, the two Defendants, specifically the Vancouver Island Health Authority and the Providence Health Care, filed their joint Response, setting out the facts that they admitted (**Rule 3.3(2)(a)(i)(A)**), the facts that they denied (**Rule 3.3(2)(a)(i)(B)**), and their version of the facts and the material facts that they were relying upon (**Rule 3.3(2)(a)(ii)(iii)**).

Despite what some bad actors are saying, this is not a counterclaim (suit) nor does it mean that **Action4Canada's** case has been dismissed. Anyone saying that simply does not understand the basics of our judicial system. [Read More](#)

Thank you!
August 2021 – We reached 100% of our current
Legal Fund financial goal!

Financial Goal

We cannot express adequately enough the depth of our gratitude to the thousands of grassroots Canadians who donated to this historical legal action to defend Canada's sovereignty and democracy and to protect individual rights and freedoms.

Special thanks to our dear friends at Vaccine Choice Canada who made a very generous donation of \$25,000 on July 21, 2021.

Odessa interviews Tanya Gaw and Te...

WINS as a Result of Filing Our Case:

Since filing the Statement of Claim **BC Ferries is honouring passengers mask exemptions and they have also been exempt from the new domestic travel vaccine requirements.** They will NOT be asking passengers for their personal protected private information.

The Transport Minister, Omar Alghabra, and Attorney General, David Lametti, are named as defendants in the Notice of Civil Claim. As a result they are not supporting Trudeau's outrageous proclamations that everyone has to get vaccinated.

"The federal Justice department has cautioned the Trudeau government that zero-tolerance vax mandates are unconstitutional... and...The federal Transportation department quietly announced that the vaccine mandate for air and rail travelers would have to be put off until December..." [Read More](#)

As a result of filing the SOC **the BC Minister of Education, Jennifer Whiteside, is attempting to avoid further liability** as she [abdicates mandating vaccinating teachers](#) by putting the onus on the School Boards. **Action4Canada** launched a campaign serving every School Board Trustee in BC with a Notice of Liability and a separate letter outlining the Sections of the School Act wherein they will be held personally liable. As a result, School Board Trustees across BC are voting against mandating vaccination for teachers.

In Canada and around the world more and more rulings are being made in support of citizen's constitutional rights and against the tyrannical Covid mandates. [Read more](#)

The media and the government have conditioned Canadians to hyper-focus on the .03% of the population who are at higher risk every year during the influenza season. In the meantime the devastation being caused to the 99.97% is going unnoticed and considered mere collateral damage.

Millions of Canadians are out of work and can't provide for their families, hundreds of thousands of businesses are being forced to close permanently, the elderly are being cruelly isolated and dying alone (not of covid but from pure loneliness), our children and youth are being psychologically traumatized, thousands of Canadians have died due to surgeries and treatments being considered "non-essential", the suicide rate has increased exponentially, and our economy is being systematically destroyed.

September 2020 – Therefore, **Action4Canada** is raising funds to commence legal action against the **Federal and BC governments** in response to their

extreme emergency measures. These measures are not supported by science or facts and are causing a great deal of harm to the majority of Canadians.

On December 25, 2020 we achieved raising 50% of the funds needed in order for our lawyer, Rocco Galati, to begin the Statement of Claim, which we will anticipate filing in April 2021. Thank you to everyone who has given so generously to rise up in defense of what should be.... our "guaranteed" rights and freedoms.

A little history ...On Saturday, September 13, 2020, Action4Canada attended an event in Vancouver, BC to announce the decision to commence legal action. We shared the need to raise funds and in an unexpected outpouring of generosity from the crowd we raised nearly \$14,000 cash. This was an amazing start to the fundraising campaign.

A constitutional challenge is costly but we believe this is the best way forward. Therefore, we continue to seek your help. Please reach out to friends, family, co-workers, business owners and anyone else you know, and encourage them to give generously. The following Call to Action is a great resource to help share the message... [Click Here](#)

Whether you live in BC or not, this affects all Canadians. The draconian BC Bill 19 must be challenged as it sets a precedence for other provinces to follow. Please watch the videos and speeches below to learn more.
